

Last half-term, we enjoyed

In our last term in year 4, we enjoyed reading and writing about the Butterfly Lion. In maths, we loved developing our accuracy when solving calculations as well as learning about shapes and angles. In science, we learnt all about our teeth including the different types and functions as well as all about our digestive system. One of our favourite subjects was art and we absolutely loved creating mod rock of different kinds of food and then painting them. In DT, we produced our very own passport cover using needle and thread. Another highlight was the summer fair which was fantastic fun. Swimming and PE lessons were always brilliant and we showed off our fantastic skills on sports day.

This half-term, we are looking forward to... We are very excited to be reading and writing all about the famous Harry Potter in English, including creating our own mythical beast. In maths, we are learning the place value and addition and subtraction of numbers up to 1,000,000. We will also be learning about equivalent fractions. Our exciting science topic is all about changing materials where we will be dissolving and separating a range of every day resources. In History, we are delving into the past and learning about World War One where we will be learning about the role of women and the changes in their lives that the war brought. In our art topic, "portraits" we are learning about the famous artist Jean Michel Basquiat and creating work in his style. In music, we are learning the music of Bon Jovi with Living on a Prayer. On Fridays, we are excited to go swimming again.

Key Vocabulary

- Change of state
- Dissolve / solution
- Reversible / non-reversible change
- Conflict
- Women's Land Army
- Commonwealth
- Diversity
- Hues, tints and shades
- Contouring
- Globalisation
- Trade
