28th April 2026

Dear parents and families,

This is our Crisp Packet Project! We need your clean crisp packets to turn into blankets to help people. Every crisp packet will make a difference!

All of our school councillors are making blankets for homeless people and people affected by war. These blankets are important because they help to keep people warm.

Please send in your **empty, clean crisp packets** to school so your child can give them to their school councillors. They can also be dropped off in the box at the school office. Grown-ups will help us to cut and seal the packets together to make warm, foil blankets.

We will recycle your crisp packets and give them a new life as a blanket for people in need.

Thank you for your help,

Willow Lane School Council
