

Last term, we enjoyed developing our football skills with Morecambe Football Club! We loved being active in their PE lessons.

Another highlight was the range of different collage and printing techniques we used in our art lessons. We created beautiful pieces based on our Mountains and Volcanoes topic.

In science, they investigated how micro-organisms grow using bread.

The children loved the fantastic experience of going to the Young Voices concert: they loved singing the pop medley and dancing along.

This term, we are looking forward to...

In May, some of the children are excited to sit their SATs and all have been working incredibly hard towards this. Please continue reading at home to support their learning. Spellings and homework will be coming weekly to ensure children are ready for the demands of their new high school. Transition meetings and days at their new school have been arranged to help children with the move!

The children are very excited for their leavers' production and assembly – it gives a fantastic opportunity for the children to develop their public speaking skills and sing and dance for an audience.

The trip to London is also a day of excitement with an experience of our capital: the British Museum and production of SIX: The Musical.
